

Nonhlanhla Tlotleng – Biosketch

Nonhlanhla Tlotleng earned a Bachelor's degree and a Masters in Biotechnology from the University of Johannesburg in South Africa. She further completed an MSc degree in Epidemiology and a PhD from the University of the Witwatersrand while a recipient of the National Research foundation (NRF) doctoral innovation scholarship. She joined the National Institute for Occupational Health as an Epidemiologist in 2016.

On her current role as a Senior epidemiologist, Dr Tlotleng is focused on risk factors and exposures for occupation related cancers, chemical exposures and their health effects and improving disease surveillance in workplaces. She is associated with the Schools of Public Health at the University of Pretoria and the University of the Witwatersrand, the Department of Environmental Health at the University of Johannesburg where she is involved in teaching, training and supervision of Master's and PhD students in Public Health. She has published widely in Occupational health and Epidemiology. She is a member of the Editorial board for International journals, serving as an Academic Editor and a reviewer. Dr Tlotleng is currently the deputy chair of the NIOH research committee.
